SOFT SKILLS

Activity

ONE

Your team is tasked with organizing an innovation workshop to foster creativity. How would you plan the workshop, including selecting activities, engaging participants, and ensuring a collaborative environment?

TWO

You want to pursue further education while working. How would you create a plan to balance your professional commitments with ongoing education, considering time, resources, and potential benefits for your career?

THREE

You recognize the importance of a strong digital presence for professional growth. How would you plan to enhance your online presence, including updating social media profiles, creating a personal website, and engaging in industry discussions?

FOUR

Your company recognizes a need for upskilling employees. How would you plan a company-wide training initiative, considering the skills needed, selecting training methods, and evaluating the program's effectiveness?

FIVE

You're passionate about a social cause and want to start a student-led initiative. How would you plan and execute the initiative, considering awareness campaigns, fundraising strategies, and collaborating with like-minded individuals?
